

General Description

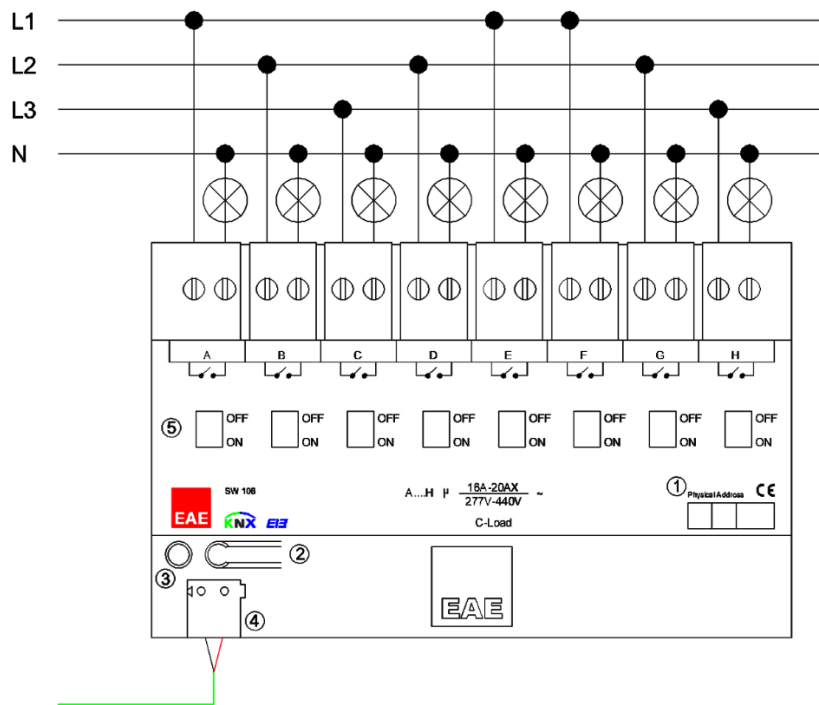

- Each channel can actualize any of these functions separately.
- Does not require an additional power supply.
- Changeable behavior after voltage return, voltage failure, ETS program.

- Eight independent channels which can be parameterized with ETS3/ETS4.
- Suitable for switching resistive, capacitive and inductive loads as well as fluorescent lamp loads to EN 60 669.
- Manual operation feature for each channel. The relay can be switched On/Off with slide switches(No feedback to the bus).
- Following function list provides,
 - Staircase
 - External logic
 - Internal logic
 - Priority
 - Threshold
 - Operating hour
 - Sweep
